Welcome to the Business Reporting

The Business Reporting is an initiative to streamline all business data collection from various government systems. This initiative is a collaboration between the Ministry of Energy, Manpower and Industry (MEMI) with the Department of Economic Planning and Development, E-Government National Centre and Darussalam Enterprise (DARe) with the support from the other Government agencies.

Through this initiative, all companies' information from various government systems will be channeled/linked into the Business Reporting and all companies in Brunei Darussalam will only be required to send their business data & performance report through the Business Reporting portal.

The portal can be accessible to companies 24hrs a day, 7 days a week.

We kindly seek your cooperation to read the Guidelines and FAQs before submitting any data in the Business Reporting Portal. We also advise and request your cooperation as employer/owner/director to complete the business information by your good self or your authorised employees. To avoid any misuse of your confidential company/business information, we strongly discourage use of third party/agent to do reporting on your behalf.
